

Mayor's Clean Water Task Force Call for Water Task Force Volunteers

The Village of Surfside Beach City Council approved the creation of the **Mayor's Clean Water Task Force**. The Water Task Force operates under the direction and advice of Mayor Greg Bisso and is headed by Dr. Dean Angell (PhD) and Sally Angell. The Water Task Force is charged with finding emergency/near-term, mid-term, and long-term solutions and funding for the City's water quality issues.

The Water Task Force needs three or four additional volunteer members. Water Task Force members will:

- Make contact and coordinate with Government and other agencies that provide assistance to small communities
- Prepare reports, presentations, grant and funding requests, and other correspondence as necessary
- Attend and participate in monthly Water Task Force meetings
- Attend and participate in working meetings
- Learn the basics of Surfside's water plant and system as well as basics of city water quality

If you are willing and able to help our city, **please volunteer**. The City Volunteer Application can be found at https://www.surfsidetx.org/page/city.volunteer_city. You may return the completed form to the City Secretary at amanda@surfsidetx.org, or you may send it directly to the Water Task Force at VSB.MayorsWaterTaskForce@yahoo.com.

Be part of the solution! Submit your application by October 30th.
